HERITAGE OF JINDALS

50

Years

50+

Countries

\$25

Billion Turnover
Annually

Established in 1970 by steel visionary Mr OP Jindal, Jindal Group has spanned across 50+ countries marking a global footprint and positioned as top 5 business conglomerates in India. The group is backed by a workforce of diverse professionals.

Jindal Stainless is an eminent part of the massive JSHL, contributing a staggering INR 2.9 billion annually through its varied businesses. It is one of the world's largest integrated manufacturer of stainless steel. The group has a state-of-the-art stainless steel plant in Odisha and is a market leader in galvanized steel and saw pipes.

DRIVING STAINLESS STEEL EXCELLENCE

JSL Lifestyle is India's largest integrated stainless steel solution provider proffering a range of products and services through its diverse verticals ranging from products for industrial usage to kitchenware and tableware.

At JSLL, we strive on the path of excellence with research and innovation. To cater to the evolving needs of business and consumers, we design and build products that add value to the life and make living better. JSLL demonstrates its muscle of stainless steel manufacturing with wide capabilities through various verticals.

Pioneers Of The Indian Stainless Steel Industry

CATALYSING STAINLESS TRANSFORMATION

JINDAL arc INFRA

It provides a wide variety of infrastructural products such as Railings, Facade, Claddings, BQS, Structures, Benches, Dustbins, Toilets, Sanitary Solutions etc. with a dynamic and versatile service outlook.

JSLL MOBILITY

JSLL Mobility is the tender-based manufacturing arm that caters to the mobility sector, especially Indian Railways and Delhi Metro with a wide variety of products like retention tanks, coaches, chassis etc.

JINDAL arc PLUMBING

An integrated plumbing solution provider in stainless steel with comprehensive pipes and fitting solutions in grade EN 316L and JIS 304 & 316L, guaranteeing quality products with easy installation.

arttdinox

India's first um segment proffering a broad home-ware and home-space range for its patrons, comprising of Tableware, Home Décor, Bespoke Kitchens, Vanities and Wardrobes.

JINDAL arc KITCHENS

A recent addition in our home-lifestyle business, Arc is a revolutionary stainless steel kitchen brand positioned in a mass-prestige segment in the Indian retail landscape

JSLL VALUE ENGINEERING

Assisting a variety of companies in procuring stainless steel products and components across industries, it extends exhaustive capabilities and aggressive support in product development and delivery.

SHAPING A STAINLESS STEEL WORLD

With decades of experience and cross-market expertise, an exacting focus on customer needs and a strong global presence. JSLL Infra stands for enterprise, excellence and success. Our company specialises in the end-to-end design, fabrication and installation of high-quality stainless steel for the Architecture, Building and Construction sector.

We have contributed to the transformation of India's urban Infrastructure landscape. Our experienced and driven design team, competent architects, product designers and engineers, approaches every project with passion and creativity. The results are always unique and complete.

At the lobby of The Oberoi, Delhi, an intricate silvery web named 'Astiti' hangs from the ceiling to the floor

Giving Shape To India's Urban Infrastructure

WE DELIVER SCALE, QUALITY & FINISH OF GLOBAL STANDARD

- > An eminent part of the massive Jindal Group, the largest producer of stainless steel
- > Infuse modern sensibilities and design into stainless steel thereby contributing to richer life experiences
- > Committed towards creating an 'aspirational stainless steel culture' in India operating in B2B, B2G & B2C domain
- > Zero compromise on product quality, level of innovation and technological advancement
- > Effective business partner relationships with long term vision and perspectives
- > With the state-of-the-art massive and self-reliant manufacturing capabilities, we deliver scale, quality and finish of global repute on one hand and secure

DELIVERING CUSTOMIZED STAINLESS STEEL SOLUTIONS

Our broad manufacturing capabilities allow us to understand the comprehensive needs of the customer and we focus on customizing their dream ventures into reality. JSLL Infra embellishes commercial, residential, and public sector projects with design-build-install structure.

Every project is unique for us and with our dynamic services, we handle them most effectively and efficiently with our stainless steel solutions.

Street Furniture:

We create the finest grade stainless steel street furniture that is easy to install, and stands firm against all climatic changes. These are easy to clean, corrosion-resistant, and last for decades.

- Seating
- Fencing
- Lighting
- Traffic & Transport
- Street Art
- Other Furniture

Infra Interiors:

Giving your homes and corporate offices a niche and stunning appeal with modern stainless steel interiors.

- Planters
- Railings
- Cladding
- Handrail
- Tables
- Seating
- Door & Window Frames
- Escalators/Elevators
- Reception
- Wall Dividers
- Pantry

Infra Exteriors:

Innovative stainless steel exteriors, designed to build a new face of the Indian urban infrastructure.

- Claddings
- Railings
- Façades
- Canopies

Art & Installations:

High-caliber welding is involved in making stainless steel arts and sculptures. We have all innovative technologies to shape and reshape the structures and bring an aesthetic revolution to urban art.

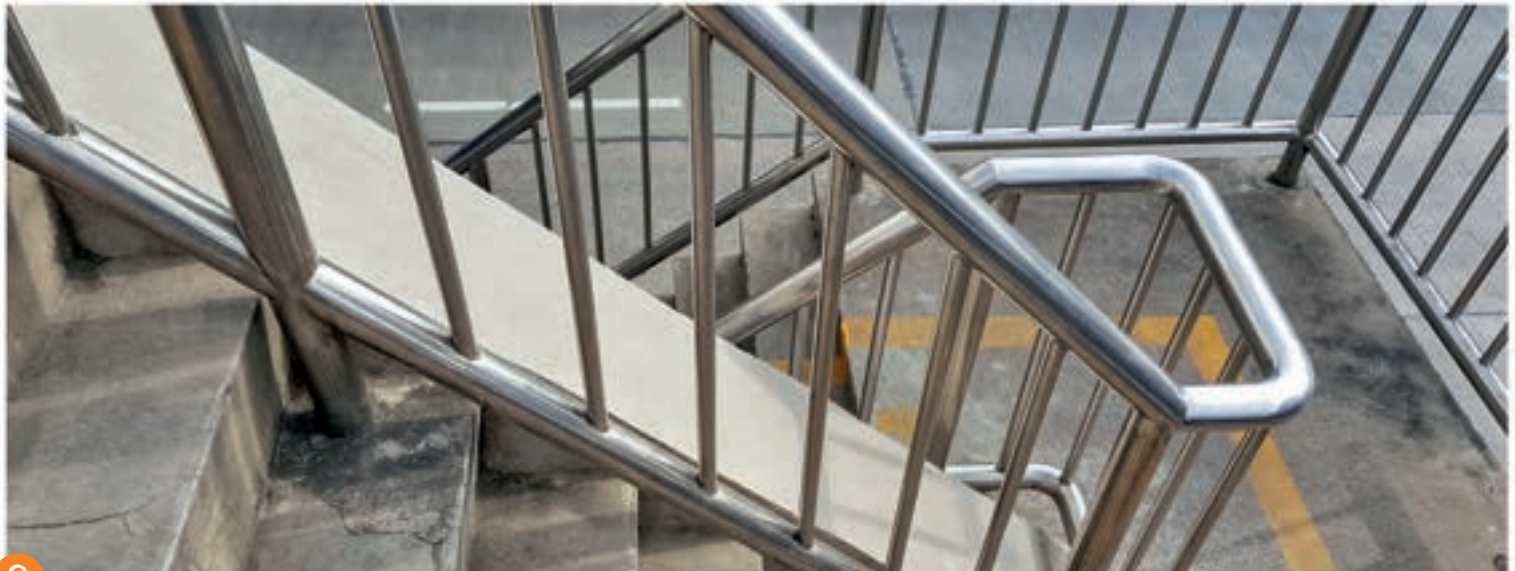

STREET FURNITURE

We make stainless steel railing systems as part of fencing for street furniture with its applications in a choice of different grades, finishes and sizes. Rails can be either or top-mounted, in Satin, Mirror or PVD colour finishes and are ideal for staircases and fencing. These can be further combined with other materials like glass, acrylic and wood etc. The result is always clean, hygienic & durable. Our railings are guaranteed factory finished as they are 100% prefabricated and can be customized as per the requirements and can be designed with or without welding, as per need.

RAILING

BRT Corridor, Delhi

We create sleek, hygienic, easy-to-install bus shelters for Bus Rapid Transit (BRT) corridors and we've delivered the same in pan India, including Delhi, Mumbai and Bhuvaneshwar. Stainless Steel plates with perforations act as trusses, welded to box sections, and support polycarbonate roofs. Each bus shelter comprises ramp railing, mid rails, middle panel assembly, benches, welcome boards, backlit and mounted advertisement panels and a litterbin. Our stainless steel bus shelters are fabricated to international standards. They are completely corrosion-resistant, lightweight, and sturdy. These shelters can also be designed to your specifications and are disabled-friendly.

CYCLONE RESISTANT

Our stainless-steel bus shelters are all weather solutions and have withstood the devastating cyclone Fani that hit Odisha. The ability of our structures to withstand mother nature provide safe and maintenance-free infrastructural demands for any city.

BUS SHELTERS

CRUT, Bhubaneswar

DTC, Delhi

Mumbai Times Media

Our stainless steel bollards are ideal for places like parking areas and at the front of commercial buildings to protect against accidental collisions. We design simple yet elegant bollards that are contemporary, practical and strong.

BOLLARDS

We present an extensive collection of sturdy street furniture blending the traditional with the modern, combining comfort and strength. Perforations on the perfectly rolled sheets used in floor-mounted benches further enhance their contemporary appeal.

Our stainless steel furniture combines style, convenience, low maintenance and extreme durability. We create street furniture in stainless steel that is environmentally friendly and sustainable.

BENCHES

Stainless Steel dustbins add an element of glamor to street furniture in modern city. Their sleek looks, stylized finish and shiny finish brings to life humdrum city streets. Our dustbins come in variety of sizes with structural stability designed to withstand rough use. This all-weather product is designed to add to the modernity of every urban city in the country

DUSTBIN

We design high-quality stainless steel letters and signboards. We develop diverse types of etching plates & coated stainless steel letters that give better visibility and easy readability that is mainly used in offices, corporate buildings, shops, malls, metro/railways stations, ect.

SIGNAGES

INFRA EXTERIORS

We deliver cladding solutions to airports, railways, malls, hotels and, commercial projects with a variety of textured surfaces, to create a range of clean, contemporary styles. Our cladding is easy to sanitize, maintain and keep clean. Stainless Steel cladding is so much more durable and resistant to environmental factors: its polish and shine can easily be maintained for decades. For a striking architectural effect, our wall cladding may be used on building exteriors like outdoor railings, paneling, roofs, framing, and more.

CLADDING

We make stainless steel railing systems as part of balcony railings for infra exteriors with its applications in a choice of different grades, finishes and sizes. Rails can be either or top-mounted, in Satin, Mirror or PVD colour finishes and are ideal for all exterior uses like balconies railings and stair railings. These can be further combined with other materials like glass, acrylic and wood etc. The result is always clean, hygienic & durable. Our railings are guaranteed factory finished as they are 100% prefabricated and can be customized as per the requirements and can be designed with or without welding, as per need.

RAILING

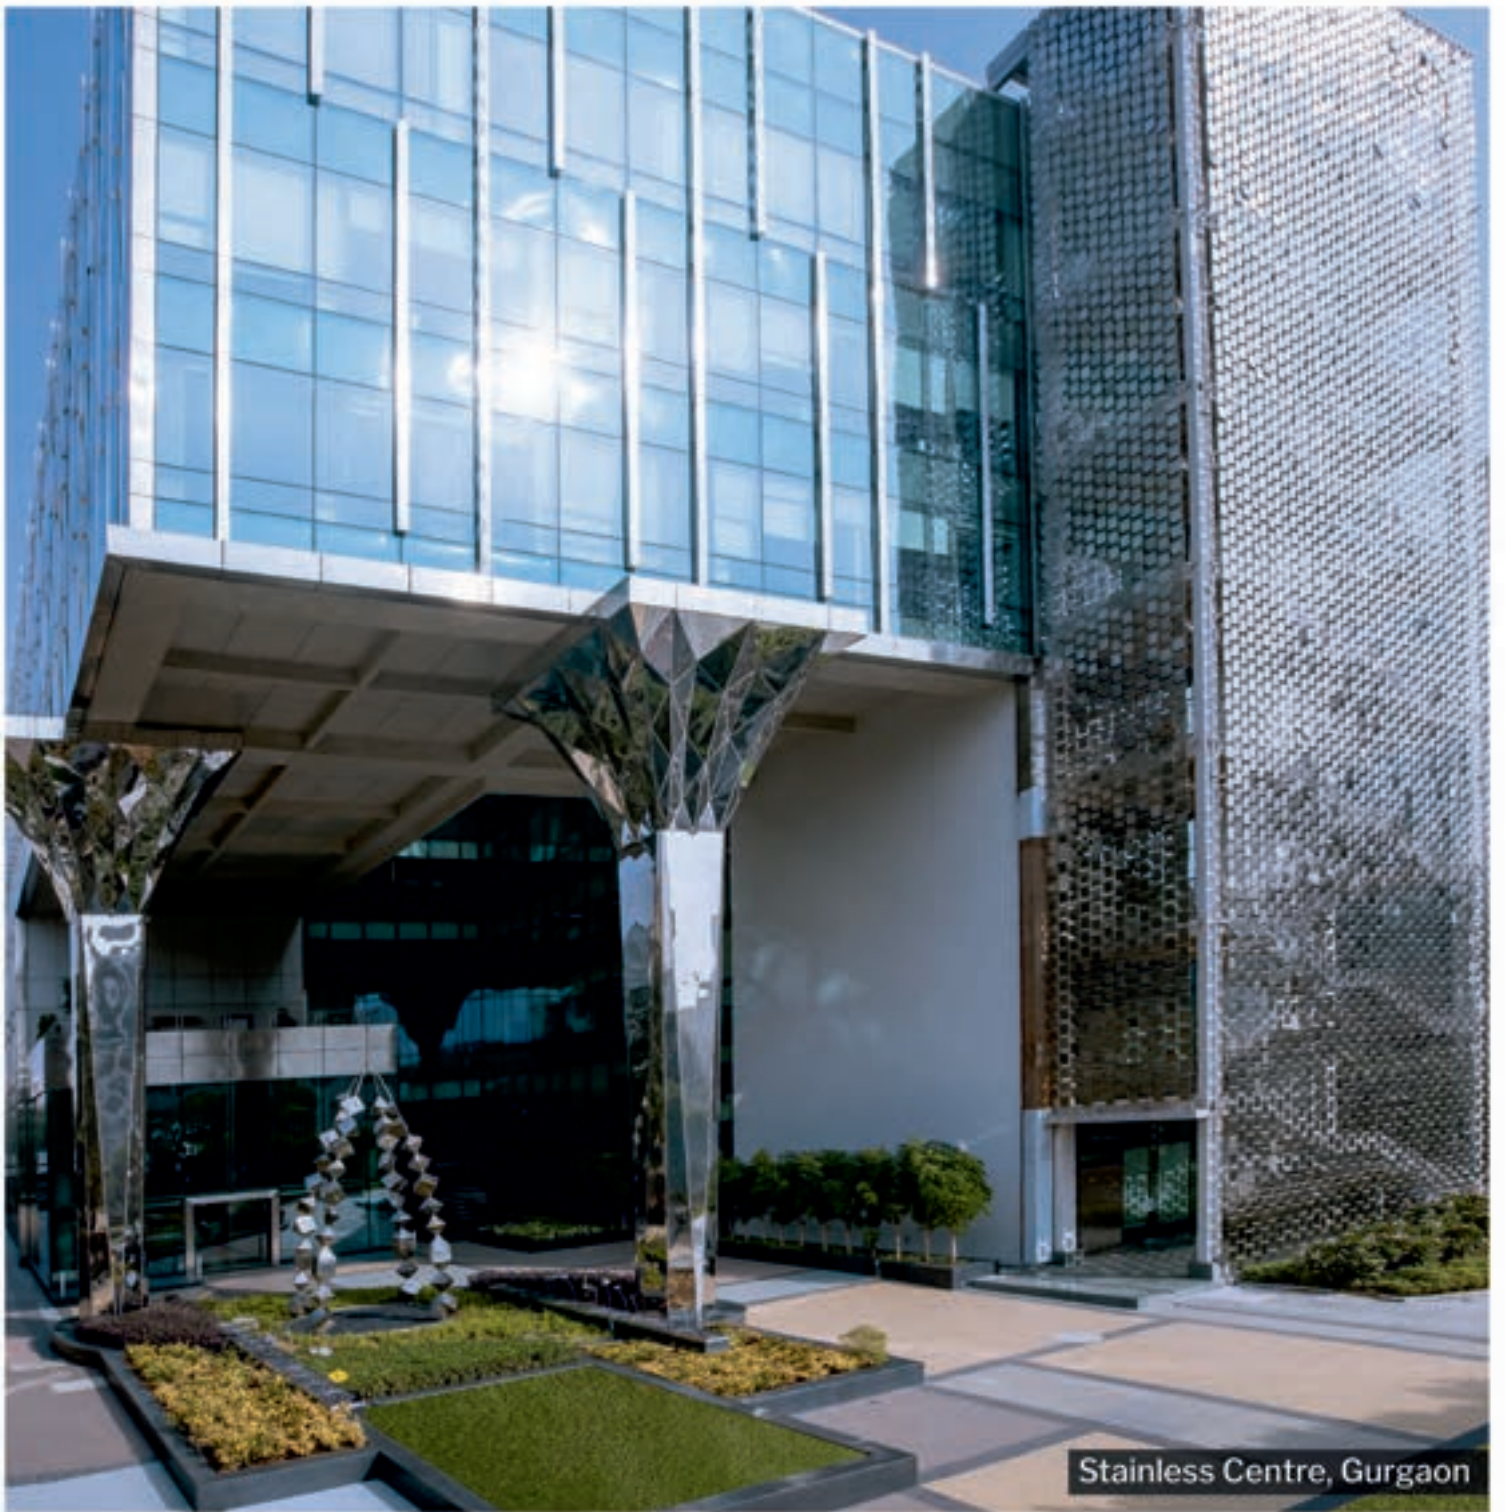

Sahara Star Mumbai

Our innovative stainless steel facades for hospitals, hotels, malls, etc enables us to reshape the face of Indian Infrastructure. Robust stainless steel structures with a wide range of facade materials in various colours ensure that the final effect is striking and unique. For state-of-the-art architectural effect, our facades create long-lasting impressions and maintain its shine throughout the years.

FACADE

Dev Aurum Ahmedabad

Stainless Centre, Gurgaon

Gallery Hotel Kolkata

Dev Aurum Ahmedabad

Architectural canopies in stainless steel are designed fabricated and installed with a focus on structural stability and aesthetics. Innovation combinations with other materials given our canopies a distinctive edge. The use of stainless steel enables us to implement innovative design ideas with both curved and linear elements skilfully playing off each other. Robust steel structures with a wide range of facade materials in various colours ensures that the final effect is striking and unique.

CANOPIES

Tulsi Bhavan

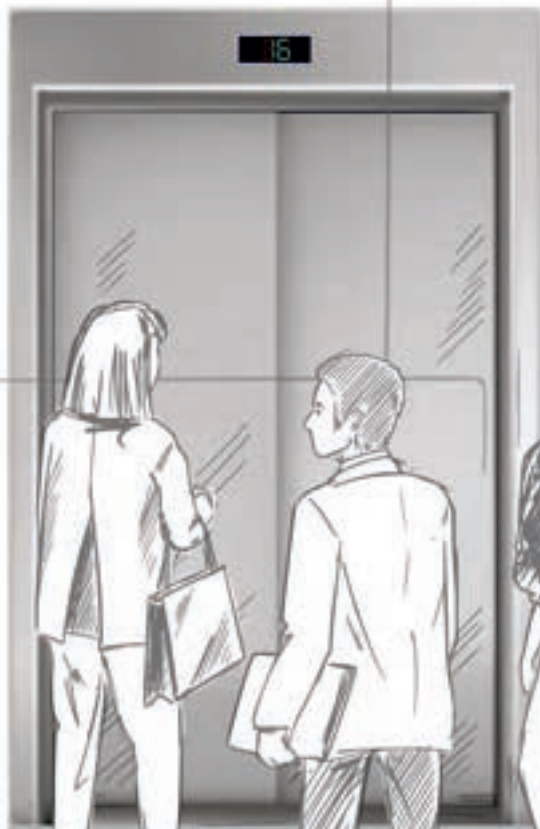

LSPD Canopy

INFRA INTERIORS

Planters that combine form and function fulfil the architect's and landscaper's vision to house indoor and outdoor plants. Rust and acid-resistant, eco-friendly, modern and elegant, the cleanliness of our range of garden planters have tremendous appeal.

PLANTERS

We make stainless steel railing systems as part of residential, commercial, and architectural applications in a choice of different grades, finishes and sizes. Rails can be either or top-mounted, in Satin, Mirror or PVD colour finishes and are ideal for all interior uses like staircases, atria and more. These can be further combined with other materials like glass, acrylic and wood etc. The result is always clean, hygienic & durable. Our railings are guaranteed factory finished as they are 100% prefabricated and can be customized as per the requirements and can be designed with or without welding, as per need.

RAILING

Unitech-Column Cladding

We deliver cladding solutions to airports, railways, malls, hotels and, commercial projects with a variety of textured surfaces, to create a range of clean, contemporary styles. Our cladding is easy to sanitize, maintain and keep clean. Stainless Steel cladding is so much more durable and resistant to environmental factors: its polish and shine can easily be maintained for decades. For a striking architectural effect, our wall cladding may be used on building interiors like indoor railings, panelling, doors, framing and more.

CLADDING

EDM mall, New Delhi

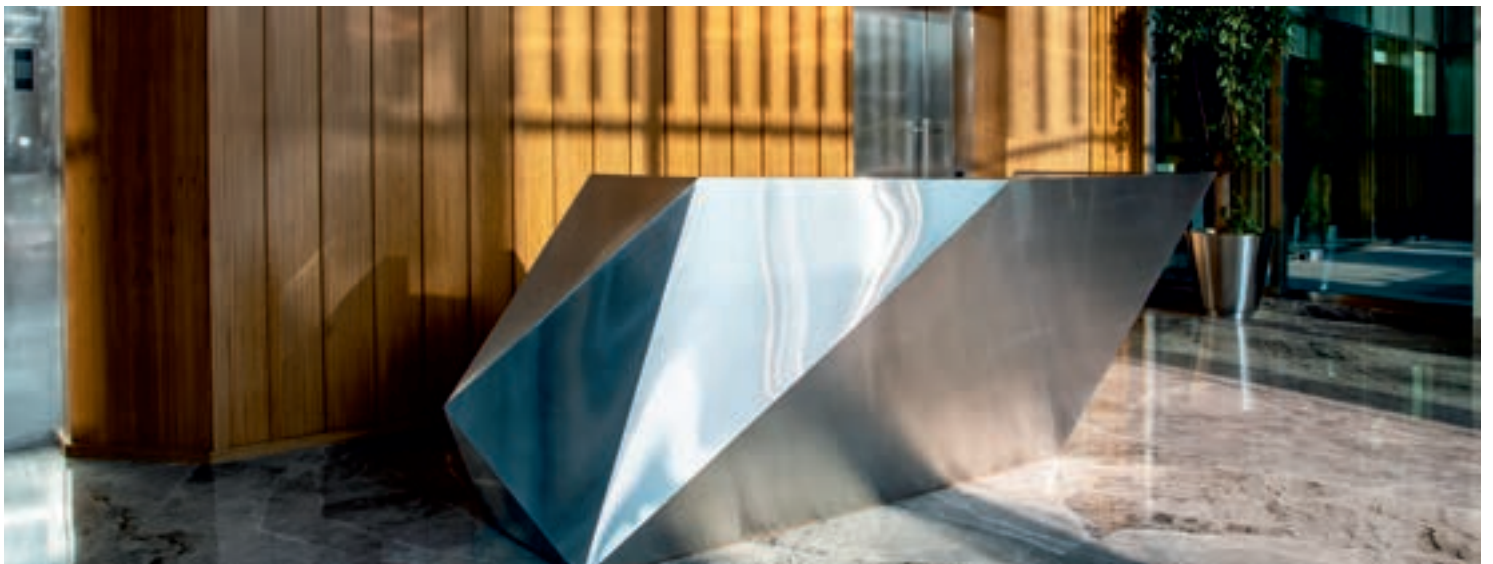

SRS Cladding

Stainless steel corporate receptions and countertops are an essential area as it is the first visual impression of any office. These stainless steel receptions and reception desks are corrosion-resistant, durable, easy to clean, and can be customized as per the customer's need.

RECEPTION

Stainless steel pantries are extremely hard-wearing, hygienic, and easy to clean. We create these pantries with high-quality stainless steel grades that ensure longevity and it does not age with time.

More properties of stainless steel pantries include scratch-resistant and corrosion-resistant, and these are also free from maintenance.

PANTRY

DOOR AND WINDOW FRAMES

When it comes to investing in your dream house or big ventures, you tend to look for the best products. Stainless steel is a one-time investment that never loses its structural value. Stainless steel door and window frames offer clear views as the sightlines are thin and sleek in stainless steel. These frames are strong, maintenance-free, corrosion-resistant, and don't bow or crack easily.

WALL DIVIDERS

Stainless steel wall dividers from the House of Jindals are aesthetical, contemporary, and are customized as per our customer's needs. These wall dividers prevent dust to stay on them and are extremely easy to clean. Stainless steel wall dividers have the effect of fire prevention, moisture-proof, and corrosion prevention.

ESCALATORS/ ELEVATORS

Stainless steel escalators/elevators give a clean and hygienic vibe to the corporate offices and residential buildings. These escalators/elevators are fire and corrosion-resistant, easy to sanitize, maintenance-free, and gives a contemporary touch to the place.

ART & INSTALLATION

Sphere Clouds, RPSG Corporate Office, Kolkata

ART INSTALLATIONS

Stainless Steel finds expression beyond the utilitarian in urban art. From large-scale stainless steel sculptures to table-top-sized ones, the smooth, graceful edges and seamless metal intersections reveal the depth of thought, detailing and high-calibre welding involved.

ATITHI, OBEROI HOTELS

At the lobby of The Oberoi, Delhi, an intricate silvery web named 'Atithi' hangs from the ceiling to the floor. Designed by Kaaru, this installation is dotted at intervals with indigo blue and marigold yellow circles of varying sizes. The screen presents three layers of steel fingers hooked onto each other, and the blue and yellow reveal stone inlay of flowers on one side and a compact mirrors on the other.

JSPL TOWNSHIP, RAIGARH

This 33m high gateway is India's tallest architectural marvel in stainless steel, which is a poetic expression of mathematical form. The geometry of the hyperbolic paraboloid is explored and composed to form a gateway. The gate consists of pipe frames joined together with connections in a hyperbolic paraboloid shape.

SWARNA JAYANTI DWAAR, HARYANA

"Swarna Jayanti Dwaar" is a commemorative structure that was made to depict progress of Haryana in last 50 years. This stainless steel art installation adds to the beauty and charm of the state. Stainless Steel was chosen because of the flexibility of steel and zero or minimum maintenance.

SPROUTS, AIIMS DELHI

'Sprouts' is an iconic stainless steel art installation symbolizing a nascent nation growing and 'sprouting' after 72 years of independence.

PLANTS: OUR CUTTING EDGE FACILITIES

Our manufacturing is backed by three robust plants that are in Pathredi, Rohad and Chennai. These state-of-the-art manufacturing plants are well equipped with cutting-edge manufacturing and fabrication technology of global repute and certification. Our facility in Pathredi is spread across an area of massive 30,351 sq. m. that has a fabrication capacity of 5000 MT per annum. Our other plant in Chennai is spread across 8,093 sq. m., while the Rohad plant is spread across 20,234 sq. m.

Our all three plants are well geared with the new age technology of automated machines installed for optimum utilisation of resources with cost-effective methodology.

PATHREDI PLANT

The Pathredi facility is spread over a covered area of massive 30,351 sq. m. with a fabrication capacity of 5000 MT per annum and caters to Mobility, Infrastructure, Value Engineering, Sanitation, and Kitchen verticals.

ROHAD PLANT

The Rohad plant is spread across 20,234 sq. m. and offers a wide range of in-house production and finishing capabilities for best-in-class quality products. The plant caters to Value Engineering and Arttd'inox.

CHENNAI PLANT

The Chennai plant is semi-automated and is spread across 8,093 sq. m. with a fabrication capacity of 3000 MT per annum. The plant is dedicated to Mobility and specializes in products for Railways and Metros.

OUR MANUFACTURING ACE

State-of-the-art manufacturing facilities in rohad and pathredi

Best-in-class machines to ensure a high-quality finish

In-house polishing, etching & pvd coating capabilities ensuring a wide range of options to enhance the look

Quality assurance lab ensuring every product has a uniform and an unmatched quality

Generates a laser beam that stimulates a lasing material by electrical discharges in a closed container.

Well-certified world-class plant securing all required compliances

EQUIPMENT TO CREATE EXCELLENCE

State-of-the-art Equipments To Create
Functional Products That Eases Lifestyle.

Laser Cutting Machine

Generates a laser beam which stimulates a lasing material by electrical discharges in a closed container.

Shearing Machine

A multipurpose device used for cutting alloys and other sheet metals.

Sheet Bending Machine

Used to assemble a bend on a sheet as per desired.

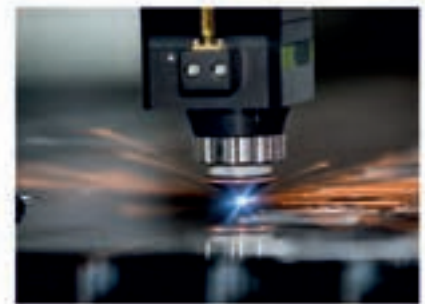

Cold Roll Forming Process

Our cold roll forming process is well equipped for cutting pipes/rod/sectional profile by using jigs.

Robotic Welding Machine

Capable of doing welding and cutting operations as well as used to weld specific sheets including sheet metal, welded wire mesh or wire mesh.

Laser Welding Machine

Assists to join pieces of metal or thermoplastics through the use of a laser.
